Social Pledge™

Social Pledge™ is tailored to the Ning platform and enables users to engage in actions for the benefit of the society at large, including volunteering, signing petitions, lending money, associating with groups, attending events, supporting campaigns, applying for jobs or making a donation.

The Ning application allows people to keep track of their 'pledges' or their friends' pledges or indicate voluntary interest in network 'pledges'.

Citizens Voice™

Citizens Voice™ primarily allows you to create and monitor campaigns for a better World. Largely aimed at social good, this sleek application available on the Ning and Orkut platforms supports you in maximizing your influence positively on widespread social issues, whether they are related to the environment, political system, human rights, terrorism or educational challenges.

Besides creating Campaigns for greater social benefit, Citizens Voice™ allows you to create Polls, review Votes and initiate or participate in Discussions.

Flinkit™

Flinkit™ allows users to bookmark and share their favorite Blogs, Websites, Pictures, Videos, Job postings or almost anything on the World Wide Web (WWW). A Ning and Orkut application, Flinkit™ serves as a super fast gadget to enable sharing web content on some of the most preferred social containers on the planet.

Wishlist™

Wishlist™ allows you to get a sneak peek into your friends' list of most coveted brands. Wishlist™ creates a platform for friends to surprise one another by making their wishes come true. This Orkut application also allows you to create event lists, invite friends and remind them well in advance.

My Calendar™

Sapplica's Social Enrichment tools portfolio features a Calendar™ tailored to the Orkut platform, with creative ways to store reminders for your friends' birthdays and favorite events. In addition, the extremely easy to use gadget allows you to send wishes and gifts to your friends on their birthdays or special occasions.
